

POSTERS PROGRAMME ICE 2008

Daily: Monday to Friday 12h30 to 14h00 Hall 3ABC Presenters at Posters

Presenting Author

SECTION 15 Conservation, Biodiversity & Climate Change

CONVENORS: Michael Samways (RSA) and Tim New (Australia)

Symposium Reference No	15.01 Insect species conservation		
Abstract No. 563	Title	Study of the entomofauna and biodiversity in an urban park in Madrid (Spain)	Luis Castresana
	Authors	Laura Del Fresno Luis Castresana Antonio Vives	
Symposium Reference No	15.02 The pollinator crisis: native bees in native habitats and agricultural landscapes		
Abstract No. 1489	Title	Stingless bees (Meliponini) and their nests in the Balsas savannah ("cerrado"), Ma, Brazil	Marcia Rego
	Authors	Marcia Rego Patricia Albuquerque Giorgio Venturieri	
Symposium Reference No	15.03 Insect conservation in practice		
Abstract No. 91	Title	Dragonfly (Odonata) phenology and assemblage response to elevation in a sub-tropical region (South Africa)	Augustine Niba
	Authors	Augustine Niba Michael Samways	
Abstract No. 880	Title	Effect of fire on arthropods in central semi-arid Argentina	F. Rodrigo Tizon
	Authors	F. Rodrigo Tizon Daniel V. Pelaez Omar Elia	
Abstract No. 1081	Title	Effects of imidacproprid and fipronil insecticide application on the larvae and adults of <i>Sympetrum frequens</i> (Libellulidae: Odonata)	Hiroshi Jinguji
	Authors	Hiroshi Jinguji Tetsuyuki Ueda	
Abstract No. 1259	Title	Faunistic analysis of <i>Anastrepha</i> (Diptera: Tephritidae) in fruits at the region of Medium Solimões River, Amazonas/Brazil.	Eneida Correa
	Authors	Eneida Correa Marcia Pena Neliton Silva	
Abstract No. 1262	Title	Faunistic analysis of <i>Anastrepha</i> (Diptera: Tephritidae) in traps at the region of Medium Solimões River, Amazonas/Brazil.	Eneida Correa
	Authors	Eneida Correa Marcia Pena Neliton Silva	
Abstract No. 2168	Title	Altitudinal variation of dung beetle communities in Sierra Nevada Mountains (Southeast Spain)	Rocío Márquez-Ferrando
	Authors	Rocío Márquez-Ferrando Adela González-Megías Rosa Menéndez	
Abstract No. 3122	Title	Production of queens and males in inbred and outbred population of a stingless bee species, <i>Melipona scutellaris</i> (Hymenoptera: Apidae)	Denise de Araujo Alves
	Authors	Denise de Araujo Alves Vera Lucia Imperatriz-Fonseca Pérsio de Souza Santos-Filho	
Abstract No. 3411	Title	The distribution of Trichoptera and Ephemeroptera in the tributary rivers of the Doring and mainstream Olifants Rivers, South West Cape, South Africa and implications for conservation planning	Ferdinand C. de Moor
	Authors	Ferdinand C. de Moor Helen M. Barber-James	
Abstract No. 3447	Title	The bark and ambrosial beetles from state Morelos, México	Armando Burgos-Solorio
	Authors	Armando Burgos-Solorio Armando Equihua-Martinez	
Abstract No. 3475	Title	The effect of different vineyard management systems on the epigeaic arthropod assemblages in the Cape Floristic Region, South Africa	Rene Gaigher
	Authors	Rene Gaigher Michael Samways	
Symposium Reference No	15.04 Insects and ecosystem services		
Abstract No. 712	Title	Biodiversity and key insect fauna on wheat agro ecosystem in Romania	Ioan Rosca
	Authors	Ioan Rosca Rada Istrate Constantin Popov	
Abstract No. 714	Title	Studies of heteroptera insects from Romania: A case study of Heteroptera from wheat and corn, as an indicator of agro ecosystem biodiversity	Ioan Rosca
	Authors	Ioan Rosca Constantin Popov	
Abstract No. 915	Title	Researches regarding biodiversity in apple orchard ecosystems in the south-western part of Romania	Rada Istrate
	Authors	Rada Istrate Ioan Rosca	
Abstract No. 1155	Title	Biodiversity of the insect pest fauna from rape crops in Romania	Popov Constantin
	Authors	Popov Constantin Rosca Ioan Cana Lidia	
Abstract No. 1481	Title	Biology of <i>Trichogrammatoidea lutea</i> (Hymenoptera: Trichogrammatidae), a potential biological control agent for <i>Helicoverpa armigera</i> (Lepidoptera: Noctuidae)	Khethani V. Mawela
	Authors	Khethani Mawela Kerstin Kruger Rami Kfir	
Symposium Reference No	15.9 Other		

Daily: Monday to Friday 12h30 to 14h00 Hall 3ABC Presenters at Posters			Presenting Author
Abstract No. 1106	Title	Evaluation of farm lands located in urban area and industrial complex using insect diversity indices	Young-Cheol Choi
	Authors	Young-Cheol Choi Jong-Gill Kim Ji-Young Choi	
Abstract No. 1121	Title	Diversity and abundance of spiders (Arachnida: Araneae) in the field and tree layers of Erfenis Dam Nature Reserve, Free State Province	René Fourie
	Authors	René Fourie Charles Haddad	
Abstract No. 1426	Title	Changes of mosquito diversity: Vectors of pathogenic agents in relationship to weather changeability in inundated areas of the Czech rivers Morava and Dyje	Ivan Gelbic
	Authors	Ivan Gelbic Jiri Halouzka	
Abstract No. 1542	Title	Influence of climate factors on biology and behavior of vine moth (Lobesia botrana Den & Schiff) in the “dealu bujorului” vineyards of Romania	Tabaranu Gabriel
	Authors	Tabaranu Gabriel Enache Viorica Simion Cristina	
Abstract No. 1681	Title	Climate change alters phenology and abundance in butterflies and dragonflies	Luc De Bruyn
	Authors	Luc De Bruyn Geert De Knijf Dirk Maes	
Abstract No. 2019	Title	Surveys of Chilean indigenous entomopathogenic fungi and nematodes and studies on their pathogenicity against pests of economic importance	Loreto Merino
	Authors	Loreto Merino Steve Edgington Dave Moore	
Abstract No. 2080	Title	Variation of the arthropod communities associated with repopulated plots with native shrub species at the micro-basin of Santa Helena–Suesca (Cundinamarca, Colombia)	Giovanny Fagua
	Authors	María Catalina Cotes-Bravo Giovanny Fagua José Ignacio Barrera	
Abstract No. 2180	Title	Understanding potential effects of climate change on dung beetle communities in subtropical rainforests of Australia	Rosa Menéndez
	Authors	Rosa Menéndez Geoff Monteith	
Abstract No. 2998	Title	Effects of Soil Fertilization on Surface Active Arachnids at Toolik Lake, Alaska	Karl Wyant
	Authors	Karl Wyant Paula Cushing Boris Kondratieff	
Abstract No. 3479	Title	Role of topoclimatic and land cover factors predicting butterfly distributions at fine scales: a case study in central Spain.	Javier Gutierrez
	Authors	Javier Gutierrez David Gutierrez Robert J Wilson	

03 July 2008
