

POSTERS PROGRAMME ICE 2008

Daily: Monday to Friday 12h30 to 14h00 Hall 3ABC Presenters at Posters

Presenting Author

SECTION 4 Forest Entomology

CONVENORS: Andrew Liebhold (USA), Michael J. Wingfield (RSA) and Dan Robison (USA)

Symposium Reference No.	4.01	Forest entomology in the era of genomics and post-genomics	
Abstract No.	2243	Title Genetic variation and prevalence rule of <i>Bursaphelenchus xylophilus</i> in China	Hong Yang Pan
		Authors Hong Yang Pan	
Symposium Reference No.	4.021	Consequences of environmental change and globalization on insect-microbe symbioses: anthropogenic effects on symbioses	
Abstract No.	947	Title High elevation emerging geometrid insect pests in the southwestern United States	Bobbe Fitzgibbon
		Authors Bobbe Fitzgibbon Terry Rogers Ann Lynch	
Symposium Reference No.	4.04	Use of Molecular Techniques to Identify and to Trace the Origin and Spread of Invasive Forest Insects	
Abstract No.	1471	Title <i>Leptocybe invasa</i> (Hymenoptera: Eulophidae) now in South Africa	Gudrun Dittrich-Schroder
		Authors Gudrun Dittrich-Schroder Bernard Slippers Stefan Nesper	
Abstract No.	3259	Title Genetic patterns of <i>Phyllonorycter platani</i> - an invasive leaf miner moth with Mediterranean origin	Ferenc Lakatos
		Authors Ferenc Lakatos Sylvie Augustin Carlos Lopez-Vaamonde	
Abstract No.	3491	Title Rapid development of microsatellite markers for <i>Deladenus siricidicola</i>, a biological control agent of <i>Sirex notilio</i>, using FIASCO enrichment and pyrosequencing	Osmond X.M. Mlonyeni
		Authors Osmond X.M. Mlonyeni Bernard Slippers Brett P. Hurley	
Symposium Reference No.	4.05	Ecological and Conservation Implications of Linkage between Arthropod Biodiversity and Forestry Practices	
Abstract No.	44	Title The presence of a forest affects honey yields: One more reason to conserve forests	Susan Sande
		Authors Susan Sande Sue Nicolson Robin Crewe	
Abstract No.	877	Title Correlates between butterfly species richness and landscape composition and structure: a multi-scale analysis	Jean-Pierre Rossi
		Authors Jean-Pierre Rossi Inge van Halder	
Abstract No.	905	Title Comparison of the leaf litter ant fauna between an Atlantic Forest area and a <i>Pinus elliottii</i> stand (Pinaceae) in Rio Claro, SP, Brazil	Daniel Solis
		Authors Daniel Solis Maria Santana Morini Eduardo Fox	
Abstract No.	934	Title Functional diversity in the insect biocenosis of German pine forests – using the example of pest, parasitoids and hosts	Ulrich Schulz
		Authors Ulrich Schulz Frank Dreger Curt Majunke	
Abstract No.	982	Title The main biotic limiting factors of gypsy moth (<i>Lymantria dispar</i> L.) populations in oak stands in southern Romania	Irinel Constantineanu
		Authors Irinel Constantineanu Raoul Constantineanu Camil Stefan Lungu-Constantineanu	
Abstract No.	1281	Title A long-term experimental study of saproxylic beetle succession in Tasmanian <i>Eucalyptus obliqua</i> logs	Simon Grove
		Authors Simon Grove Dick Bashford Marie Yee	
Abstract No.	1282	Title The effectiveness of wildlife habitat strips in maintaining mature forest carabid beetle assemblages	Simon Grove
		Authors Simon Grove Belinda Yaxley Robert Taylor	
Abstract No.	1285	Title The Tasmanian Forest Insect Collection	Simon Grove
		Authors Simon Grove Dick Bashford	
Abstract No.	1517	Title Scots pine felling debris as a substrate for development of saproxylic beetles	Jiri Foit
		Authors Jiri Foit	
Abstract No.	1528	Title Distribution of saproxylic insects on standing Scots pine trees with the relation to diameter, thickness of the bark, and height above the ground	Jiri Foit
		Authors Jiri Foit	
Abstract No.	1991	Title Ecology of the Salticid spider <i>Afraflacilla epiblimoides</i>; Implications for conservation of central European low-land forests	Jiri Foit
		Authors Vladimír Hula Martin Jarab	
Abstract No.	2999	Title EMEND Entomology: Arthropod conservation and sustainable forest management	John Spence
		Authors John Spence Jason Edwards Colin Bergeron	
Abstract No.	3226	Title Ground beetle community response to commercial and alternative silviculture in Eastern boreal forests of Canada	Timothy Work
		Authors Kit O'Connor Timothy Work	
Symposium Reference No.	4.06	Insect invasion dynamics in forest ecosystems	

Daily: Monday to Friday 12h30 to 14h00 Hall 3ABC Presenters at Posters			Presenting Author
Abstract No. 532	Title	Cameraria ohridella Deschka and Dimic (Lepidoptera: Gracillariidae) host trees and potential host range expansion of the moth in Greece Authors Nikolaos Avtzis Dimitrios Avtzis	Nikolaos Avtzis
Abstract No. 557	Title	Some observations on the distribution, behavior and hosts of the acacia bagworm Aechmophila kordofensis R. (Lepidoptera: Psychidae) in Kordofan, Sudan Authors Yasir G. A. Bashir Mubarak O. Eljepori Mohammed E. Abd Elrahman	Yasir G. A. Bashir
Abstract No. 642	Title	Insect fauna (Psocoptera) in the forests of Croatia Authors Irma Kalinovic Vlatka Rozman Anita Liska	Irma Kalinovic
Abstract No. 711	Title	The seasonal occurrence, soil distribution and flight characteristics of the lesser chestnut weevil, Curculio sayi (Coleoptera: Curculionidae) in Mid-Missouri Authors Ian Keeseey Bruce Barrett	Bruce Barrett
Abstract No. 1311	Title	Life history strategies of the armored Rambutan scale insect, Aulacaspis alisiana (Hemiptera: Diaspididae) on the Japanese silver tree in Fukuoka, Japan Authors Charles Midega Keiji Takasu	Charles Midega
Abstract No. 1825	Title	Egg parasitism rates of the invasive Australian eucalyptus weevil, Gonipterus sp., in its home range Authors Jane Elek Nita Ramsden Vinu Patel	Jane Elek
Abstract No. 3201	Title	Biological control of Sirex noctilio with Beddingia siricidicola: Current status in the Pinus radiata plantations of the Arauco companies Authors Miguel Angel Poisson Alvaro Duran Rodrigo Ahumada	Miguel Angel Poisson
Abstract No. 3293	Title	New predator of redgum lerp psyllid in Eucalyptus plantations in Brazil Authors Carlos Wilcken Thaise Dias Pedro Ferreira Filho	Carlos Wilcken
Symposium Reference No. 4.08	Impacts of insects on forest landscapes: implications for forest health management		
Abstract No. 736	Title	Relationships between defoliating insects and predators in some Romanian oak forests Authors Constantin Ciornei Catalin Rang Constantin Netoiu	Constantin Ciornei
Abstract No. 792	Title	What is the source of CO2 production in wood ant nests ant or microbial respiration Authors Jan Frouz	Jan Frouz
Abstract No. 878	Title	Post-storm study of the spatial distribution of the bark beetle Ips sexedentatus in a pine plantation forest (Landes de Gascogne, Southwestern France) Authors Jean-Pierre Rossi Jean-Charles Samalens Dominique Guyon	Jean-Pierre Rossi
Abstract No. 917	Title	Evaluation of some selective materials as larvicides against the cedar leaf moth, Acleris undulana Walsingham Authors Halil Saribasak Fedai Erlen Huseyin Cetin	Fedai Erlen
Abstract No. 1357	Title	Seasonal occurrence of cone pyrrid, Dioryctria abietella and control efficacy of insecticides in Korean pine (Pinus koraiensis) seed orchards in Korea Authors Jin Taek Kang Gyung Hwan Jang In Sik Kim	Dong Woon Lee
Abstract No. 1655	Title	Outbreak dynamics and natural enemies of the pine bark beetle Ips acuminatus Authors Fernanda Colombari Massimo Faccoli Andrea Battisti	Andrea Battisti
Abstract No. 2096	Title	Mixed forests – a strategy to avoid pest outbreaks? How euryphages and stenophages could react: A case study of temperate forests Authors Julian Heiermann Stefan Schütz	Julian Heiermann
Abstract No. 2138	Title	How much do eucalyptus leaf beetles eat? Authors Jane Elek Natasha Beveridge	Jane Elek
Abstract No. 3402	Title	Possible factors affecting bark beetle outbreaks after forest fires Authors Maria Lombardero	Maria Lombardero
Abstract No. 3448	Title	Implication of exotic volatiles as a new strategy for management of Coleophora obducta (Meyrick) Authors Shan-Chun Yan Hui Yang Lu-Lu Gao	Shan-Chun Yan
Symposium Reference No. 4.9	Other		
Abstract No. 1541	Title	A local outbreak of the northern pine processionary moth Thaumetopoea pinivora on Gotland, south Sweden Authors Stg Larsson Cecilia Ronnäs Andrea Battisti	Stig Larsson
Abstract No. 1959	Title	Insecticides against cone and seed insects in Norway spruce (Picea abies) seed orchards Authors Olle Rosenberg Tiina Ylioja Paal Krokene	Paal Krokene
Abstract No. 2147	Title	High bluestain fungus (Ophiostoma minus) abundance negatively affects outbreaks of the southern pine beetle, Dendroctonus frontalis Authors Stephen Taerum Kier Klepzig Matt Ayres	Stephen Taerum
Abstract No. 2195	Title	Effect of habitat and trap depth on pitfall trap catches of ground dwelling invertebrates Authors Colin Bergeron Evan Esch Jaime Pinzon	Colin Bergeron
